Speaker, Workshop Facilitator and MC

Tamsin is an enthusiastic, skilled and energetic speaker whose engaging style ensures that sessions are not only highly relevant but have a lasting positive impact.

On the surface Tamsin has enjoyed a highly successful sales career in Fashion, publishing and IT. But that is only half the story. The reality is that she has had to overcome personal struggles with confidence and anxiety, and has tasted the bitter pill of failure too, all of which she powerfully shares as part of her message.

The biggest lessons she has learnt though has been to find her voice and the courage to be her own catalyst for change.

As host of The Women in Business Awards and Campaign for the last 5 years for The Business Magazine, Tamsin is passionate about tapping in to the power in people particularly other women, to push through doubts and take charge of their careers and lives.

As a result of her experiences and determination to learn to speak up and step up, Tamsin has been inspired to reach out to those of us who haven't yet found our voices to find the courage and skills to get seen and get heard.

In 2019 RAWtalks academy was launched. Pioneering programmes for women of influence. Tamsin has designed strategies, steps and processes as part of a system to empower women to develop **REAL** confidence, **REAL** influence and have **REAL** impact in your career and business.

It takes courage to be authentic, to be bold, be brave and be true to yourself and your purpose - but first you have to find it, and that can take courage.

Her mission is to ignite the fire within other women and for them to recognise that they are **ENOUGH**.

“Tamsin will disrupt, challenge and redirect your thinking but more importantly inspire you to take action.”
