Tamsin Napier-Munn, Founder, RAWtalks academy

Are you holding back or Leaning In to possibilities?

Certainty = confidence and in this uncertain world, the only person you can be certain of is you.

If like me you've spent years with the CD's (Creeping Doubts), hesitating, waiting until you're asked, to be sure, ready or perfect, waiting until all the lights turn green.

Is now the time to be brave, be bold, to show up, step up, speak up?

In this virtual world, as an aspirational woman of influence, are you inspiring others around you? Are you getting seen and getting heard?

Do you have something to say, but don't know how to say it to have the right impact? To sell your ideas, get buy-in to you?

Have you found the courage and your voice to ask for what you want, to speak up with confidence, gravitas, presence and have the influence you want?

Are you pursuing your inner purpose and living life without hesitation?

Or are insecurities, doubts and fears holding you back?

A little like having your foot flat on the accelerator with the hand brake on? Do you relate?

That was me!

With an inner purpose and determination, I discovered how to break out of 'mental jail' and find my voice, I started putting into practice many of the strategies and techniques that I realise I had previously used to break-through self-imposed limitations and to inspire and influence others... the result?

My life has turned around, from break-down and financial crisis to building a life of purpose and possibility.

I still have doubts, I still have fears, but now I don't let them stop me.

By using proven techniques and strategies I take more inspired action, flip self-limitations into opportunities and live life with greater courage and confidence.

I want to share these with you.

How do I do it? I disrupt and challenge your thinking and inspire you to change.

Now is the best time to invest in you, to strengthen your position to give you certainty and confidence, and take the handbrake off your career, your life.

Are you ready to make change happen? After all, you will never know what you are truly made of until you're stretched.

“I founded RAWtalks academy with the purpose of enabling women with techniques, tools, strategies and the power of a ‘push’ to liberate themselves from self-imposed limitations.

For women to re-discover what they are truly made of, to find and use their inner voice, to pursue their purpose with passion, and in doing so inspire others to do the same.

This is true personal-empowerment. I don't believe anyone can really empower you, you are the only one who can decide to take charge of your career and your life and it comes when you convert intentions into actions.

You only find out what you're truly capable of when you're stretched.”

Tamsin Napier-Munn

So my question to you is...

What if...

You are braver than you realise, smarter than you think and stronger than you know?

Imagine...

Being that person you know you are capable of being, doing the things that you love to do and achieving the success that you owe yourself.

And in doing so...

You will be a true role model and inspire other women around you.

If you seriously want to raise your profile and have impact...

Be Bold, Be Brave, Be Better

Act now to secure your place with me

I do this by challenging and inspiring you to step up, to speak up, to trust your instincts, tap into your talents, your greatness and to take courageous action.

Is it time for a breakthrough?

RAWtalks (Real Authentic Women) academy was established in 2019 by Tamsin Napier-Munn to empower women to get seen, get heard, get ahead. Our programmes challenge, develop and inspire aspirational women in business, leaders in organisations, entrepreneurs, and career returners, to find their passion and purpose.

*RAWtalks academy supports SMART WORKS Reading. 5% of all sales revenue goes towards helping disadvantaged women get back in to work.

Why me?

I have spent 35 years in sales with a really unpredictable and totally unplanned career in fashion, IT consulting, publishing and training. Holding positions as sales manager, facilitator and coach for Dale Carnegie and area director, business owner, and over the last 5 years, manager and host of The Women in Business Awards and Campaign for the Business Magazine.

As many single mums may know, it has its' absolute joys, but can also offer huge personal growth opportunities! Knowing like many of you the financial highs and lows, the mental highs and lows – having had a challenging upbringing, been riddled with anxiety, and then needing to embrace that wonderful time of life where the 'mones' take over!

RAWtalks is a culmination of my own journey and the strategies I've used to overcome struggles and challenges to achieve results, as well as what I have discovered as the DNA of many successful women in business I have interviewed and have had the privilege of getting to know.
